# Adewale Favour Adediwura

Lagos, Nigeria

fadewale2016@gmail.com

+2348103352687

## Objective

Creative and performance-driven Software Engineer with 3+ years of experience building fast, accessible, and responsive user interfaces. Skilled at bridging the gap between design and engineering to deliver pixel-perfect, high-performance web experiences. Passionate about developing inclusive, scalable solutions that meet the diverse needs of users across Africa's digital landscape.

---

## Education

### Babcock University

Bsc. Computer Science • Ilishan-Remo, Ogun State

10/2022

- Second Class Upper Honors Grade
- 

## Experience

### ActivEdge Technologies

Software Engineer • Lekki, Lagos State

06/2023 - Present

#### Introspec Settlement 2.0 (Enterprise Settlement Application)

[Introspec 2.0 Demo Link](#)

- Developed and optimized core features for enterprise settlement workflows.
- Built scalable, responsive UIs tailored to client-specific business needs.
- Ensured cross-browser compatibility, performance optimization, and accessibility compliance.
- Collaborated with UI/UX designers and backend engineers to deliver seamless user experiences.

#### PayEdge (Supply Chain Finance Solution) [PayEdge Demo Link](#)

- Translated Figma designs into pixel-perfect, reusable components with consistent styling and smooth interactions.
- Maintained high code quality through rigorous code reviews, debugging, and troubleshooting.
- Scaled design systems and component libraries to accelerate development workflows.
- Integrated RESTful APIs and third-party services for efficient frontend-backend data flow.

### Providus Bank

Software Intern • Victoria Island, Lagos

01/2021 - 07/2021

- Automated key banking workflows using Process-Maker, improving operational efficiency by reducing manual tasks through web-based process automation.
  - Developed and maintained web-based internal tools and dashboards, enhancing user workflows and data accessibility.
  - Assisted in testing, debugging, and documenting internal web applications, collaborating with senior engineers to ensure robust, maintainable code.
  - Participated in front-end and back-end development tasks, using JavaScript, HTML, and CSS to implement UI enhancements and streamline user interactions.
  - Engaged in technical training focused on web development best practices, software engineering, and agile methodologies to strengthen development skills.
-

## **Skills**

- Programming & Frameworks: Typescript, JavaScript, React.js, Next.js, Node.js, Java.
  - Databases: MongoDB, MySQL
  - Web Technologies: HTML5, CSS3, JSX, Tailwind CSS
  - APIs & Cloud: RESTful APIs, AWS, Docker, Git
-
